# Notes to Appendices and Data

All appendices are limited to candidates for the 1997 citywide elections unless otherwise noted, and data are cumulative for all committees for a given campaign. All data for participants in this report and in all appendices, are from the New York City Campaign Finance Board's Campaign Finance Information System ("CFIS") as of April 30, 1998. The CFIS database is, however, subject to change as a result of ongoing audits and additional amendments to filings received from candidates. Figures are based upon what is reported to the Board and may not reflect conclusions about the data reached during the audit and enforcement process. Unless otherwise indicated, all formulas in the report are identical to the formulas described in the appendices.

Data for non-participants are based upon State Board of Elections financial disclosure statements required under state law to be submitted to the Board of Elections in the City of New York and made available to the Campaign Finance Board as of April 30, 1998. Non-participant filings are not audited by the CFB. Data for non-participants are included only for purposes of making general comparisons. Among the specific reasons these non-participant totals are *not* directly comparable with participant data are:

- a) The CFB was unable to obtain all New York City Board of Elections ("City BOE") filings required of non-participants' committees covering the entire period of their activity within the 1997 election cycle, particularly filings made early in the cycle. (Note: non-participants' filings do not, of course, reflect presumptions that the CFB uses in framing an election cycle, which for the 1997 elections is, in general, considered to run from 1/12/94-1/11/98, or the bases on which the CFB distinguishes primary and general election periods.)
- b) The totals shown are derived from summary information reported in City BOE filings and are complete only for the City BOE filings that were obtained by the CFB. Missing filings tend to lead to under-inclusive totals. Where a candidate had more than one authorized committee active in the 1997 election cycle, the totals shown here represent the sum of the multiple committees' reported transactions for the filings obtained. Totals for participants are based on detailed transactions and may include transactions (e.g., transfers to and from political party committees) that would not, in general, be included in a non-participant's contribution or expenditure totals.
- c) A number of the filings obtained from the City BOE were not complete disclosure statements. For example, some filings were missing summary or detail pages; others contained illegible information or errors in arithmetic. Various inconsistencies were apparent in how information was reported by non-participants, such as the improper use of certain forms (e.g., schedules for "housekeeping" transactions).

## Notes to Appendices and Data

---

Some of the City BOE filings covered multiple disclosure periods or included transactions from different disclosure periods.

- d) The manner in which non-participants submit amended disclosure statements is different from the CFB protocols for amendment and resubmission.
- e) Some non-participants' filings may contain information relating to a previous election. This is not indicated in non-participants' filings in a clear and consistent manner. The contribution totals shown do not include surplus funds remaining from a non-participant's previous elections, which would have been available to the non-participant for expenditure in the 1997 election cycle.
- f) The City BOE filings contain various versions of disclosure forms that have been issued by the State Board of Elections. Additional variation among the filings may be the result of changes in the State Board of Elections forms and disclosure instructions over time and the fact that many committees continue to use superseded versions.

Vote totals for all candidates are as provided by the New York City Board of Elections.

### **APPENDIX A: CAMPAIGN FINANCE PROGRAM PARTICIPANTS IN THE 1997 ELECTIONS**

Appendix A presents an alphabetical list of participants by office sought for the 1997 elections. An asterisk indicates that the participant was on the ballot in either the primary or general election. A dagger indicates incumbency.

### **APPENDIX B: TOTALS FOR CANDIDATES APPEARING ON THE PRIMARY ELECTION BALLOT**

This appendix includes data for both participants and non-participants through the first post-primary filing. The first post-primary filing does not necessarily reflect expenditures attributable only to the primary election. In addition, it includes expenditures for any anticipated run-off elections. It shows the candidate's name, participation status, net contributions, public funds payments (participants only), net expenditures, and votes received. Also noted at the district level is whether bonus matching was triggered for that district for campaigns that met the threshold to receive public funds. At the candidate level incumbency is noted. Specific information about the data is indicated in the "Notes" column on the last page of the appendix.

#### **Data for Participants**

*Net Contributions* includes itemized and unitemized monetary contributions, in-kind contributions, transfers received from a party or constituted committee, and advances, less refunds and forgiven loans. This does not include any surplus funds from previous elections; transfers from non-covered committees, which are reported as lump-sum amounts on the disclosure statements; any loans that are deemed contributions because they are outstanding after the last election, taken out after the election, or paid back by a third party; or any bills that are deemed contributions because they are

outstanding for more than 90 days, paid back by a third party, or forgiven. *Net Expenditures* consists of itemized and unitemized expenditure payments, in-kind contributions, transfers to a party or constituted committee, advances on all submitted primary disclosure statements, and outstanding bills from a campaign committee's last submitted primary disclosure statement, less expenditure refunds. *CFB payments* includes disbursed funds to candidates for the primary only.

### **Data for Non-participants**

Totals shown represent cumulative contributions and spending from a candidate's 10-day post-primary filing with the Board of Elections or, if this was unavailable, the latest preceding available statement.

### **APPENDIX C: TOTALS FOR CANDIDATES APPEARING ON THE GENERAL ELECTION BALLOT**

This appendix includes data for both participants and non-participants through the January 15, 1998 periodic statement. It shows the candidate's name, party, participation status, total contributions, public funds payments (for participants only), total expenditures, and votes received. Also noted at the district level is whether bonus matching was triggered for that district for campaigns that met the threshold in either the primary or the general election period. Campaigns that were removed from a primary ballot subsequent to being found eligible for bonus matching are included. At the candidate level incumbency is noted. Specific information about the data is indicated in the "Notes" column on the last page of the appendix.

For those candidates in a primary or run-off or subject to a primary election or run-off election spending limit, *financial activity attributable to the primary election and the run-off election is included in these totals and is not distinguished from activity for the general election.*

### **Data for Participants**

*Net Contributions* includes itemized and unitemized monetary contributions, in-kind contributions, transfers received from a party or constituted committee, and advances, less refunds and forgiven loans. This does not include any surplus funds from previous elections; transfers from non-covered committees, which are reported as lump-sum amounts on the disclosure statements; any loans that are deemed contributions because they are outstanding after the last election, taken out after the election, or paid back by a third party; or any bills that are deemed contributions because they are outstanding for more than 90 days, paid back by a third party, or forgiven. *Net Expenditures* consists of itemized and unitemized expenditure payments, in-kind contributions, transfers to a party or constituted committee, advances, and outstanding liabilities from a campaign's last filed disclosure statement, less expenditure refunds. *CFB payments* includes total disbursed funds to candidates for the primary, runoff, and general elections.

## Notes to Appendices and Data

---

### **Data for Non-participants**

Totals shown represent cumulative contributions and spending from a candidate's January 15, 1998 filing with the Board of Elections or, if this was unavailable, the latest preceding available statement.

### **APPENDIX D: CONTRIBUTIONS AND OTHER RECEIPTS (DATA FOR PARTICIPANTS ONLY)**

*Itemized Contributions* includes itemized monetary and in-kind contributions, transfers received from a party or constituted committee, and advances, less forgiven loans. This does not include any surplus funds from previous elections; transfers from non-covered committees, which are reported as lump-sum amounts on the disclosure statements; any loans that are deemed contributions because they are outstanding after the last election, taken out after the election, or paid back by a third party; or any bills that are deemed contributions because they are outstanding for more than 90 days, paid back by a third party, or forgiven. *Unitemized Contributions* includes contributions of \$99 or less that campaigns are not required to report by contributor. *Refunds* represents all contributions refunded by the campaign. *Total Contributions* shows the sum of itemized and unitemized contributions less refunds. *Other Receipts* shows total income derived from sources other than contributions or loans, such as interest and proceeds from sales or leases, but does not include public funds payments. *Funds from Past Elections* shows each campaign committee's opening balance in its first submitted disclosure statement. *Total* shows the sum of total contributions, other receipts, and funds from past elections, if any.

### **APPENDIX E: CONTRIBUTIONS BY TYPE OF CONTRIBUTOR (DATA FOR PARTICIPANTS ONLY)**

This appendix shows itemized monetary and in-kind contributions and advances less refunds and forgiven loans by type of contributor, as reported by the campaigns: *Individuals*, *Corporations*, *Employee Organizations*, which includes unions and guilds; *Political Committees*, including candidates' committees and transfers received from a party or constituted committee; *Partnerships*, *Other Organizations*, which denotes contributions reported by campaigns that were not assigned to one of the preceding five categories; and *Unknown*, which is used for contributions for which no correct category was provided by the candidate. In addition, many unions make contributions through political committees, in which case they will be reported as political committees rather than as employee organizations. This does not include any surplus funds from previous elections; transfers from non-covered committees, which are reported as lump-sum amounts on the disclosure statements; any loans that are deemed contributions because they are outstanding after the last election, taken out after the election, or paid back by a third party; or any bills that are deemed contributions because they are outstanding for more than 90 days, paid back by a third party, or forgiven.

### **APPENDIX F: LOANS** (DATA FOR PARTICIPANTS ONLY)

This appendix shows total loans made and the number of lenders to a campaign. *Number of Lenders* identifies the number of individuals or other entities that made loans to the campaign. *Total Loans* represents the total dollar amount of loans received. *Aggregate amount outstanding* is equal to total loans less any principal and interest repayments and loans forgiven by the lender. Negative outstanding amounts can result from the extent to which accrual of interest causes loan repayments to exceed the original loan amounts. Advances made to a campaign are not shown.

### **APPENDIX G: PUBLIC FUNDS PAYMENTS** (DATA FOR PARTICIPANTS ONLY)

*Gross Funds Payable* includes the amount of money payable based upon a campaign's valid matching claims and the matching funds limit. *Public Funds Withheld* includes penalty payments deducted from payment of public funds and other withholdings. *Public Funds Disbursed to Candidates* is the amount of public funds actually paid to campaigns. *Public Funds Returned to CFB* includes funds returned to the Board and penalties affirmatively paid to the Board by the campaigns, as opposed to amounts withheld from public funds payments by the Board. *Net Amount* depicts the total cash flow from the Board to the campaigns.

### **APPENDIX H: TOTAL EXPENDITURES** (DATA FOR PARTICIPANTS ONLY)

This appendix shows itemized and unitemized expenditure payments, in-kind contributions, transfers to a party or constituted committee, advances, and outstanding bills from a campaign committee's last submitted disclosure statement, less expenditure refunds. There are two broad categories of expenditures: *exempt* and *non-exempt*. *Exempt expenditures* are expenditures for certain purposes, such as compliance with the Campaign Finance Act, that do not count toward a participant's expenditure limit. Figures are based upon what is reported to the Board and may not reflect conclusions about the data reached during the audit and enforcement process; spending is shown chronologically and may not reflect an actual allocation between the primary and general elections. In determining the applicable spending limit, an expenditure for goods or services is considered to be made when the goods and services are received, used, or rendered, regardless of the date billed or paid.

Expenditures are shown in six different periods. *Prior to 6/23/94* represents all spending before the Campaign Finance Board rules amendments took effect to establish spending limits for four of five offices prior to the election year. This spending is not subject to the Program's spending limits. *1994-1995* shows subsequent non-exempt and exempt expenditures for the 1994 and 1995 calendar years, and *1996* shows non-exempt and exempt expenditures for the 1996 calendar year. City Council candidates were not subject to any spending limit until 1996. The next following columns show exempt and non-exempt spending from *1/1/97-9/9/97*, *9/10/97-11/4/97*, and *11/5/97-1/11/98* respectively, which approximate the reporting periods for the

primary, general election, and post-election periods. Limits applicable to each period are shown at the bottom of each page.

### **APPENDIX I: CANDIDATES' FINANCIAL SUMMARY (DATA FOR PARTICIPANTS ONLY)**

This appendix summarizes contributions, expenditures, public funds payments, and other campaign activity. *Net Contributions* includes the total value of itemized and unitemized monetary contributions, in-kind contributions, transfers received from a party or constituted committee, and advances, less refunds and forgiven loans. This does not include any surplus funds from previous elections; transfers from non-covered committees, which are reported as lump-sum amounts on the disclosure statements; any loans that are deemed contributions because they are outstanding after the last election, taken out after the election, or paid back by a third party; or any bills that are deemed contributions because they are outstanding for more than 90 days, paid back by a third party, or forgiven. *Number of Contributors* includes the number of individuals and other entities which made itemized contributions to the campaign. *Other Receipts* shows total income derived from sources other than contributions or loans, such as interest and proceeds from sales or leases, but does not include public funds payments. *Public Funds Payments* includes total disbursed funds to candidates for the primary, runoff, and general elections. *Loans Received* represents the total dollar amount of loans received. *Loans Paid* includes all payments of loan principal and interest. *Net Expenditures (Except Outstanding)* consists of itemized and unitemized expenditure payments, in-kind contributions, transfers to a party or constituted committee, and advances, less expenditure refunds. *Outstanding Bills* consists of the outstanding liabilities taken from a campaign committee's last filed disclosure statement.

# Summary of Advisory Opinions and Board Determinations for the 1997 Election Cycle

### ADVISORY OPINIONS

#### **1994-1**

**Special Election.** This opinion explains disclosure requirements and expenditure limits for the special election held in City Council district 51 in 1994. (February 23, 1994)

#### **1994-2**

**Contribution by Credit Card or Electronic Funds Transfer (“EFT”).** This opinion outlines procedures campaigns must follow in receiving contributions by periodic electronic funds transfers or credit card charges. If all criteria of the Campaign Finance Act and Board Rules are met, contributions raised through periodic EFT’s and credit card charges may be matched with public funds. (May 12, 1994)

#### **1994-3**

**Contemporaneous Disclosure.** Under a new local law committees authorized by prospective candidates (for offices other than City Council) are required to submit disclosure statements to the Campaign Finance Board each January 15 and July 15 of the four-year election cycle in order to preserve claims for matching funds for contributions received before January 12 in the year of the election. This Advisory Opinion describes how the new law affects rules previously adopted by the Board. (August 18, 1994)

#### **1995-1**

**Special Election.** This opinion sets out deadlines and guidelines for disclosure statement filing for the special election held in City Council district five in January 1996. (December 7, 1995)

#### **1996-1**

**Exempt Compliance Costs.** Certain expenses of complying with City and State election law, and with the Act and Board Rules, are exempt from the Program’s expenditure limits. This opinion summarizes expenditures that may be claimed as compliance costs and those that may

not. Campaigns have the burden of showing that an expenditure is exempt and that adequate records have been maintained. (April 4, 1996)

### **1996-2**

**Allocation of Expenditures Between Two Committees Authorized for Different Offices.** This opinion addresses the circumstance in which a candidate is running for two offices simultaneously, only one of which falls under the jurisdiction of the Campaign Finance Program, and permits the two committees to share a separate allocation account. The opinion describes the procedure a campaign must follow in allocating and disclosing shared expenditures. (July 18, 1996)

### **1996-3**

**Legal Challenge to Results of Election.** Legal costs associated with defending a lawsuit challenging the results of an election are exempt expenditures for the election. Such expenses may not be paid for with public funds. Any fundraising conducted by the authorized committee to pay for such legal costs is subject to all Program requirements. (December 12, 1996)

### **1997-1**

**Endorsements by Sponsors of Debates.** Under the new Debate Law, an organization that makes an endorsement in a primary election for a citywide office remains eligible to sponsor a general election debate among candidates for that same office, as long as that organization does not make an endorsement for the general election before the debate is held. (February 25, 1997)

### **1997-2**

**Spending on Television Commercials for a Run-off Primary Election.** When a run-off primary election is reasonably anticipated, a campaign may contract before the primary for the production of television commercials for use in the anticipated run-off election. This opinion addresses the requirements applicable to such spending and the use of a separate run-off account when the candidate is in a run-off and, in the alternative, when there is no run-off. (May 15, 1997)

### **1997-3**

**Ballot Status Criteria for Inclusion in Debates.** The standards for determining whether a candidate in the Campaign Finance Program is on the ballot for purposes of making public funds payments will also apply in determining whether a candidate will be included in a debate. (May 15, 1997)

### **1997-4**

**Candidate's Opponent is Off the Ballot.** A participating candidate may receive public funds after the candidate's sole opponent is removed from the ballot, provided that the candidate demonstrates qualification for public funds payments under the Act and Board Rules. (June 12, 1997)

## Advisory Opinions and Board Determinations

---

### 1997-5

**Primary Election Debate.** A primary election debate is not required when only one candidate in the primary election is participating in the Program. (June 12, 1997)

### 1997-6

**Campaign Finance Act Implications of Changing the Office Sought.** This opinion addresses how the Campaign Finance Act's spending limits apply to expenditures made during a campaign for Mayor that is terminated when the candidate decides to run for Borough President instead. These expenditures are presumptively subject to the Borough President spending limits, with certain exceptions outlined in the opinion. (June 24, 1997)

### 1997-7

**"Leading Contenders" for the Debate Program.** When only one candidate (or none) has met the "leading contender" criteria for the second general election debate, that debate will not take place. The alternative voter education forum will take place, however, and the Program participant who has met the "leading contender" criteria may appear. (July 24, 1997)

### 1997-8

**Alternative Voter Education Forum.** Under the Debate Law, an alternative, nonpartisan voter education program for the second general election debate will take place even if only one candidate for citywide office participating in the Program is required to appear. The sponsoring organization has wide discretion to determine the nature and timing of this alternative program. (September 5, 1997)

### 1997-9

**Joint Fundraising by Two Campaigns Running as a Ticket.** This opinion addresses how the Act's contribution limits apply when participating candidates run as a ticket, make joint expenditures, and engage in joint fundraising. These candidates must show they had received enough contributions that do not exceed either candidate's contribution limit to account fully for their "fair share" of joint expenditures. The opinion also outlines requirements relevant for the reimbursement of joint expenditures, regarding the use of public funds, deductions from public funds payments, spending limits, and in-kind contributions. (September 10, 1997)

### 1997-10

**Anticipated Run-off Election Does Not Take Place.** This opinion addresses how Program requirements are affected when an anticipated run-off primary election for Mayor will not take place because the Board of Elections announces a primary election winner. (September 18, 1997)

### 1997-11

**Opportunity to Ballot in Primary Election.** A candidate participating in the Program, who appears as the only candidate on the ballot in a primary election when an opportunity to ballot petition has been filed, may receive public matching funds for the primary election, should the candidate otherwise meet all Program requirements. (October 9, 1997)

## Appendix J

---

### **1997-12**

**Contributions by a Participating Candidate's Committee.** This opinion addresses whether public funds will be reduced when a participating candidate makes expenditures to a political club or to another candidate. (October 9, 1997)

### **1997-13**

#### **Candidate in General Election Ends Campaign and Does Not Appear in Debate.**

When a participating candidate on the general election ballot asserts, in support of a decision not to appear in a required debate, that his campaign for office has ended, the campaign's expenditures become subject to restrictions that would otherwise first apply after the general election. (November 25, 1997)

### **1997-14**

**Spending for a Post-Election Party.** A campaign may not pay for costs associated with a party for the purpose of thanking contributors, volunteers, and others who assisted with the election in advance of the required repayment of public funds. (December 9, 1997)

## **BOARD DETERMINATIONS**

### **1997-1**

**Messinger v. Giuliani.** A complaint was made by Ruth Messinger against Rudolph Giuliani concerning government-financed advertisements (in which Giuliani appeared) announcing the elimination of two-fare transit zones. The Board dismissed the complaint, finding that any improper expenditure of government funds must be addressed in the first instance by an agency with appropriate jurisdiction, such as the Conflicts of Interest Board. (August 14, 1997)

### **1997-2**

**Giuliani (1997 Election Contributions).** The Board found that a number of contributions, including contributions from "affiliated sources," made over a period of approximately three years to the Giuliani campaign were in excess of the contribution limits. The Board assessed a total penalty of \$220,000 for 134 contributions, for which the campaign documented refunds totaling \$356,651, as directed by the Board. (September 18, 1997)
