#### **Failing to file**

**\$6,250**

Independent spenders must report all covered communications, associated expenditures and reportable contributions in the earliest disclosure filing occurring after both the communication is published and reportable expenditures are incurred, or contributions are received. *See* NYC Charter § 1052(a)(15)(b); Board Rules 14-02, 14-03. In the case of daily disclosure, a filing is considered failed if not submitted within three days of its due date or by two days before Election Day, whichever is earlier.

On July 13, 2021, the Spender filed the July periodic disclosure statement, reporting a mass mailing communication featuring Rebecca Lamorte that was distributed on June 16. This communication was subject to the daily disclosure requirements and should have been reported on June 17. The communication was not reported within three days of its distribution or by two days before the election, constituting a failure to file.

The Board assessed a penalty of \$6,250 for this violation.
