

16th City Council District

Bola Omotosho (D)

I'm Dr. Bola Omotosho and I'm running for the City Council in the 16th District in the Bronx. I have a proven record of community leadership, and I am not a career politician.

As the Chairperson of the North Central Bronx Hospital Community Advisory Board, I helped prevent the closing of North Central Bronx Hospital. Today, the hospital is still serving the community.

As the current Chairperson of Community Board 5, I revitalized a local shopping district, providing badly-needed jobs and economic development to the community.

I developed job-training programs for young people and funded the first green roof in a Bronx school, St. Simon Stock.

I am president of the board of directors of the Mt. Hope Housing Company, a non-profit company with 36 buildings and over 1300 apartments.

As a foreign trained medical doctor and a clinical researcher, I am familiar with health care issues, which affect us all. With the start of Obamacare this year, I am well qualified to provide leadership on the City Council on the implementation of this important program.

As your new representative on the City Council, I pledge to you that I will put my leadership skills and wealth of experience to work on your behalf.

I will focus on the key issues important to all of us: public safety, education, health care, economic development, housing and the quality of life in all our neighborhoods.

I will be a full-time member of the Council and my door will always be open to you.

I hope to earn your support and vote in the Democratic Primary on Election Day. Thank you and God bless.
