

**Elisabeth Hutton**

Hi,

I would like to find out more information about how I might provide testimony for the Voter Assistance Advisory Committee about my experience trying to cast a ballot in this primary election and what is involved in the process.

I experienced many problems casting my ballot. The absentee ballot I applied for by e-mail in May never arrived, despite calling the BOE to follow up. I ended up voting in person. It was quite slow despite there not being any line and the location being generally well run.

I am a critical part of a contingency care plan for a family member with a serious underlying condition and have taken extensive precautions to remain extremely isolated. This was the first time I left my building since March 18 (and that was to a grocery store also in my building).

Thank you for coordinating this very important hearing.

Warmly,  
Libby

Elisabeth Hutton
