If this Primary election process is any indication of what we are in for in November, I am on high alert.

-When my ballot did not arrive by last thursday, I called BOE.

They checked and told me my ballot was mailed out on June 13th. I was told an inordinate amount of ballots were requested. The firm that was contracted, apparently was overwhelmed. (I received mine Tuesday afternoon.- after voting.

-Where I voted, PS144, the BOE schematic for the entrance was Kessel Street - BUT the actual entrance was all the way around the corner on Juno Street.

The "gated entrance" on Kessel was locked. Absolutely NO clear verbal signage except for handicap graphics with arrows pointing left ...

People were confused.

I did reach out to the Supervisor on site, she assured me she didn't know that and she will put up sign. She did not within the time frame I checked. (took a picture of Kessel entrance attached.)

I did call BOE. All they say is, I will report it.

.

Respectfully,

Pearl Gartner ED65 AD28
