

Samantha Bulmash

Hi,

I heard that you are soliciting feedback on the NY election. I live in the Morris Park neighborhood of the Bronx, and I submitted an application for an absentee ballot in late May, and never received it. I reached out to the NY Board of Elections via email, and never received a response. I was disenfranchised this election, as I was not willing to put my personal health at risk to vote in person. I hope that you are able to express my frustration for me and get some concrete action plans put in place to ensure that no one has to deal with this failure in the general election in November. Let me know if any additional information would be helpful. I appreciate your work to ensure that the elections are free and open to all.

Best,

Samantha Bulmash
